Leon’s Thinking Book

Volume 1 · Ages 4–6

Leon the lion and his friend Luz invite children aged 4 to 6 on a playful trip through 9 islands of games: looking closely, remembering, shapes, patterns, logic, numbers, words, space and feelings.

Many of the games are made with real artworks by Robert de Farias — his lines, his colors, his paintings. Children look, compare, count and remember while they discover real art.

Short activities, clear instructions to read aloud, and answers at the back that a grown-up can check in seconds.

- **More than 60 playful activities**
- **Real artworks by the author**
- **Answers for grown-ups**
- **A certificate at the end**
