Leon’s Thinking Book

Volume 2 · Ages 6–8

Volume 2 takes children aged 6 to 8 one step further: more steps, more rules to keep in mind and more puzzles to plan — from detail detectives and picture sudoku to codes, maps and the Final Big Challenge.

Many of the games are made with real artworks by Robert de Farias: children search his paintings, compare his lines and sort his pictures while they practise attention, memory and logic.

Clear instructions, a mission map to follow and answers at the back that a grown-up can check in seconds.

- **More than 60 missions and puzzles**
- **Real artworks by the author**
- **Answers for grown-ups**
- **A certificate at the end**
