My name

Hello, grown-ups!

Leon's Thinking Book is a playful activity book for children aged 4 to 6. Its idea is simple: **learning to think, not just learning to answer.**

Inside, Leon and Luz invite your child to nine islands of games. On each island, your child can practise one way of thinking:

- **Look Closely:** noticing small details.
- **Remember:** keeping pictures and words in mind.
- **Shapes & Colors:** naming and comparing shapes, colors and sizes.
- **Patterns:** seeing what repeats and what comes next.
- **Logic:** sorting, matching and explaining "why".
- **Numbers:** counting, comparing and adding small amounts.
- **Words:** sounds, letters, rhymes and first words.
- **Space:** where things are and how they fit.
- **Feelings:** naming feelings and finding ways to calm down.

Each island opens with a painting by the artist Robert de Farias, the author of this book. Take a moment to look at it together — there are no wrong answers when you talk about art.

Before you start

• Keep it short: 10 to 15 minutes is plenty.

• Read the instructions aloud. Most children of this age don't read yet.

• Children can answer in many ways: pointing, saying, drawing, coloring or writing. All of them count.

• You don't have to go in order. It is fine to skip a page and come back later.

How to help without giving the answer

Ask, don't tell. Try: "What do you see?" "How did you find it?" "Is there another way?" "What would Leon do?"

Give a small clue, not the answer. Point to one row, or cover part of the page: "Look at the top. Is it there?"

Mistakes are part of thinking. Leon makes mistakes too — and then he tries again. You can say: "Interesting! Let's check together." or "Oops, like Leon! What could we try now?"

Praise the effort. Instead of "Clever!", try: "You looked very carefully!" "You didn't give up!" "You found a new way!"

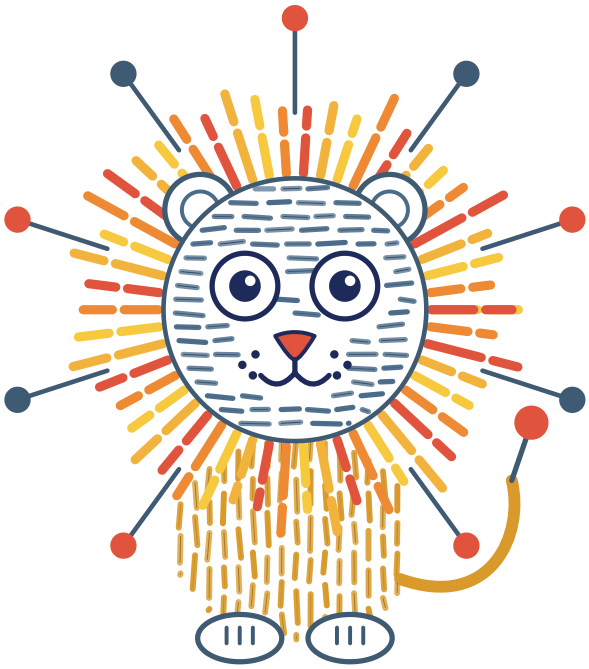

Adapt to your child. Younger children can start with one-star pages, point instead of writing, or do half a page. Older children can try three-star pages and the "Try Another Way" boxes, and explain their answers.

Look for the little boxes: *Parent's Little Tip*, *Ask Leon*, *Talk About It* and *Try Another Way* give you short ideas for each page.

The answers are at the back of the book (pages 91–95). Some pages have many good answers. Talk about them together!

This book offers playful practice. It is not a test, a diagnosis or a substitute for advice from a teacher or health professional.

Meet Leon & Luz!

"Hi, I'm **Leon**! I love to explore. Sometimes I make mistakes — then I try again!"

"Hi, I'm **Luz**! I light up when someone has an idea. What will *your* idea be?"

Try → **Oops!** → **Try again!**

Leon has a go. It doesn't work... yet. Leon finds another way.

Parent's Little Tip: When your child gets stuck, ask: "What would Leon do?" Leon never gives up — he just tries another way.

How to use this book

Stars show how hard a page is

★☆☆ **I Can Do It!** An easy start.

★★☆ **Let Me Think!** Time to think a little more.

★★★ **Big Challenge!** For brave thinkers. Help is welcome!

Little signs

 **Listen:** a grown-up reads something aloud.

 **Look and remember:** look carefully, then turn the page.

Little boxes for grown-ups

Parent's Little Tip: a short idea for the grown-up.

Ask Leon: one more question to think about.

Talk About It: a question to talk about together.

Try Another Way: an extra challenge for children who want more.

Leon is your thinking friend. He tries, makes mistakes and tries again! **Luz** lights up when you have an idea.
